TECHNOBUZZ

Energise 2020 has a dedicated TechnoBuzz setup for the Original Equipment Manufacturers, Technology and Energy services providers, Startups and System Integrators to showcase their unique offerings to the End Customers from different segments such as Industries (Large & Medium), Commercial (Hotels, Hospitals and IT), Municipalities and Public Sector. It provides an opportunity to corporates, businesses and industries to get familiar with innovative products, technologies, solutions, business models, services and expert advice on EE technology.

POSTER BOARDS AND STANDEES

Poster Boards and Standees are available for the energy service providers and system integrators to showcase their services, case studies and expertise in the energy efficiency domain. This will be placed in the main TechnoBuzz area.

WHY EXHIBIT?

BRAND POSITIONING

Create a recognition for your brand among the stakeholders of EE ecosystem

TARGET MARKETING

Build a targeted marketing campaign to attract your audience and industry professionals

GENERATE BUSINESS LEADS

Generate business leads via in-person meetings with energy users from different segments for your business

NETWORK

Build your network by interacting with delegates from the energy efficiency domain

WHAT'S NEW?

The TechnoBuzz provides an opportunity to the manufacturers, technology & service providers and startups nationally and internationally to showcase their latest energy efficient technologies, solutions, business models, financing options, and case studies through dedicated audio-visual dynamic displays.

TechnoBuzz exhibitors will be provided dedicated time slots to talk about their latest innovative technologies in the exhibition area and network with the End Customers from different segments attending the conclave. The use of state-of-art audio-visual equipment will aid in networking and engagement opportunities with potential customers.

DATE & LOCATION

TechnoBuzz will be inaugurated on 11th February and will be in progress till the afternoon of February 12th. It will be facilitated to ensure that all delegates attending Energise 2020 pass through your exhibition booths. All booths will be assigned on an early-bird discretion.
